

## List of eurocodes and the Danish National Annexes

The first generation of Eurocodes were published from 2002 and onwards. A revision of the Eurocodes was launched in 2013 and the work on the more than 80 standards is now approaching the finishing line.

The first of the new Eurocodes was published as DS/EN 1996-1-1:2022 *Eurocode 6 – Masonry structures – Part 1-1 General rules for reinforced and unreinforced masonry structures* in April 2022. However, this new Eurocode for masonry cannot be used in connection with the present versions of DS/EN 1990, the DS/EN 1991-serie and all the other DS/EN eurocodes. Furthermore, a new Danish National Annex (DK NA) has not yet been drafted.

Therefore, DS has put up this table, showing the interdependency between the Danish Building Code requirements (BR18, chapter 15), the present Eurocodes and the relevant Danish DK NA.

<b>Valid version of DS/EN according to Danish Building Regulations:</b>	<b>Valid Danish National Annex (DK NA) in English:</b>	<b>DK NA dated:</b>
<b>Safety:</b>		
DS/EN 1990:2007	(Under translation – see Danish version)	-
